💼 Experience

Front End Developer Intern

Genocus Tech Services   *April 2023 - Oct 2023*

- I became adept at HTML, CSS, JavaScript, Bootstrap, and jQuery by starting with the fundamentals.
- I spearheaded the development of a local homepage and assigned projects ideal for interns.
- Utilized HTML, CSS, and JavaScript to implement functionalities across both mobile and desktop platforms.
- I have acquired a comprehensive understanding of the UI developer ecosystem and how it functions as a whole.

Blazon Technology Services   *Nov 2024 - Feb 2024*

- I engaged with stakeholders throughout the development process to validate creative concepts and ensure adherence to design standards.
- Collaborated effectively with client services, sales, and design teams in a fast-paced, deadline-oriented setting.
- Conducted thorough user experience quality assurance testing to detect and address deficiencies.
- Tested the functionality of web-based products and provided improved versions to clients. Utilized HTML, CSS, and JavaScript to create features for mobile and desktop platforms.
- Coordinated with the digital content manager to acquire content for updates and expansions. Developed websites compatible with various browsers.

CURRENTLY FOCUSING

- React Js
- Ant Design
- React Bootstrap
- Swiper js
- Node
- Npm
- Jsx
